Safety and document status

A current manufacturer-approved directions-for-use document and approved specification sheet have not yet been supplied for this public pack. These pages are Exo Motion supplier summaries, not clinical instructions, certificates or a complete contraindication list. Obtain and review the current product documents before finalising supply.

For suitable independent walkers only. Keep prescribed aids and relevant professional advice in place. ARTG Class I inclusion is not endorsement, a promised clinical outcome or funding approval. ALWAYS FOLLOW THE DIRECTIONS FOR USE.
